To: Assistant Chief, Audio Division
Media Bureau

SUPPLEMENT

BK Radio ("BK") joined by Katherine Pyeatt ("Pyeatt") (together the "Joint Parties"), hereby submit a supplement in the above-captioned proceeding. The purpose of this supplement is to propose a solution which will remove any conflict between the proposals of BK and Pyeatt.

1. On August 26, 2002, BK filed a counterproposal in this proceeding proposing the substitution of Channel 240C2 for Channel 239C2 and the reallocation of that channel from Mason to Mertzon, Texas. Since the proposed use of Channel 240C2 at Mertzon conflicted with the proposal of Pyeatt, the Petitioner in this proceeding, to allot Channel 241A at Eldorado, Texas, BK proposed that an alternate allotment, Channel 263A, in lieu of Channel 241A at Eldorado. The allotment of Channel 241A at Eldorado would result in the grant of both BK's Mertzon counterproposal and Pyeatt's Eldorado proposal; however, it also required the substitution of three allotment channels, including the substitution of Channel 283C for 263C at Fort Stockton. BK's counterproposal was accepted by Commission Public Notice on August 26, 2003 (Report No. 2624).

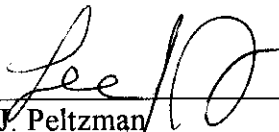

2. The Joint Parties have agreed on a technical solution which would streamline this proceeding by changing the reference coordinates of Pyeatt's Eldorado proposal to N: 30-51-00, W: 100-31-00 and, rather than proposing a different channel, instead proposing new reference coordinates to the Fort Stockton Channel 263C allotment at N: 30-50-06, W: 102-55-00. No other communities would be affected by this solution and the proceeding would, therefore, be greatly simplified. Attached is an allocation study demonstrating the feasibility of this solution. Also, since Fort Stockton was included in BK's timely filed counterproposal, no new communities are introduced as a result of the solution.

Accordingly, the Joint Parties urge the Commission to allot Channel 240C2 at Mertzon, Texas as well as allot Channel 263A at Eldorado, Texas, but at different coordinates and also retain Channel 263C at Fort Stockton, but at different coordinates as proposed above.

Respectfully submitted,

BK RADIO

KATHERINE PYEATT

Date: July 26, 2004

Technical Statement

This statement and the attached exhibits were prepared on behalf of on behalf of BK Radio and Katherine Pyeatt in support of their Supplement. This statement demonstrates the technical feasibility of the proposal to resolve the conflict in the proceeding MM Docket No. 02-167, RM-10479, 10770, involving Eldorado, Mason, Mertzon, and Ft Stockton, Texas.

By relocating the reference coordinates for Ft Stockton, TX 263C to 30-50-06 102-55-00, channel 263A could be allocated as an alternate channel for the conflicting channel 240A Eldorado, TX.
Eldorado reference coordinates are 30-51-00, 100-31-00.

Attached are channel studies for 263C Ft. Stockton, Exhibit #1 and 263A Eldorado, Exhibit #2, using the above referenced coordinated for each.

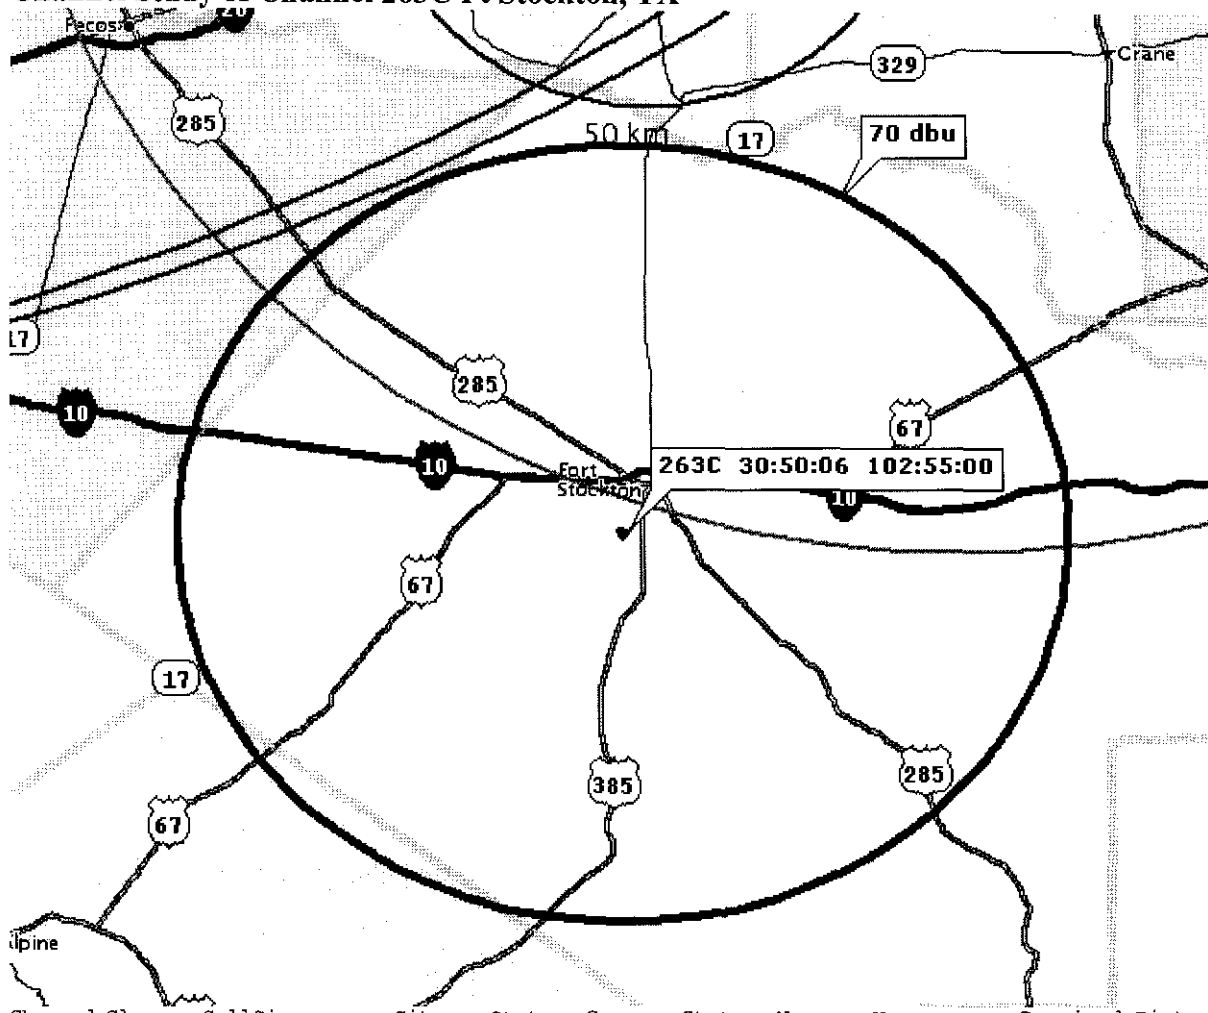

Also attached are maps demonstrating the ability of these referenced sites to deliver city grade coverage to their city of license.

I, Bryan A. King, prepared the foregoing statement and all information contained herein is true and correct to the best of my belief. My qualifications are a matter of record before the Federal Communications Commission.

Bryan King
